

Supported Independent Living

Home is where the heart is.

But if your place isn't set up to suit, it's hard to love where you live.

We offer accommodation that lets you live as independently as possible, with extra support for day-to-day life. We're always on hand to help out, including one-on-one assistance whenever required. All of our houses are fully equipped and accessible, close to the essentials and shared by three or more people, each with their own personalised room.
