

Common Prices for Support at Home Clients

Every two months, the Australian Government asks providers to publish the common prices clients have paid for services funded through the Support at Home program.

A common price is the amount most frequently charged for a particular type of service during a set period of time. This fact sheet shares Brightwater at Home's common prices for services delivered between July 2026 and August 2026. It is designed to give you a simple snapshot of what people are most commonly paying for their care.

Please note, **this is not our full price list**. For a complete list of Brightwater at Home's Support at Home prices, please visit our website or see our pricing information on the My Aged Care portal.
